Step:10 Set root password

The screenshot shows the 'ROOT PASSWORD' screen in the CentOS 7 installation process. The title bar includes 'ROOT PASSWORD' and 'CENTOS 7 INSTALLATION'. A 'Done' button is in the top left. The main text reads: 'The root account is used for administering the system. Enter a password for the root user.' Below this are two password input fields: 'Root Password:' and 'Confirm:'. The 'Root Password' field has a strength indicator bar that is mostly green but ends with a red section, labeled 'Weak'. An orange banner at the bottom contains a warning icon and the text: 'The password you have provided is weak. You will have to press Done twice to confirm it.'

Step:11 Create a User

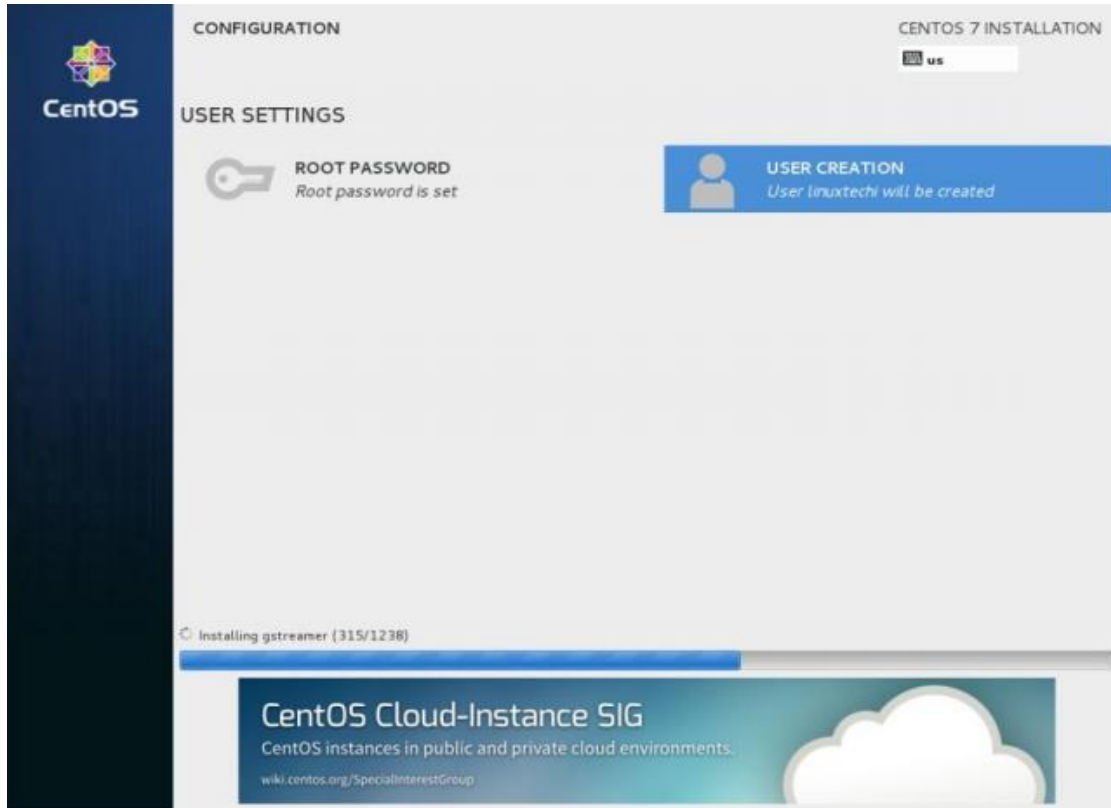

The screenshot shows the 'CREATE USER' screen in the CentOS 7 installation process. The title bar includes 'CREATE USER' and 'CENTOS 7 INSTALLATION'. A 'Done' button is in the top left. The form contains the following fields and options:

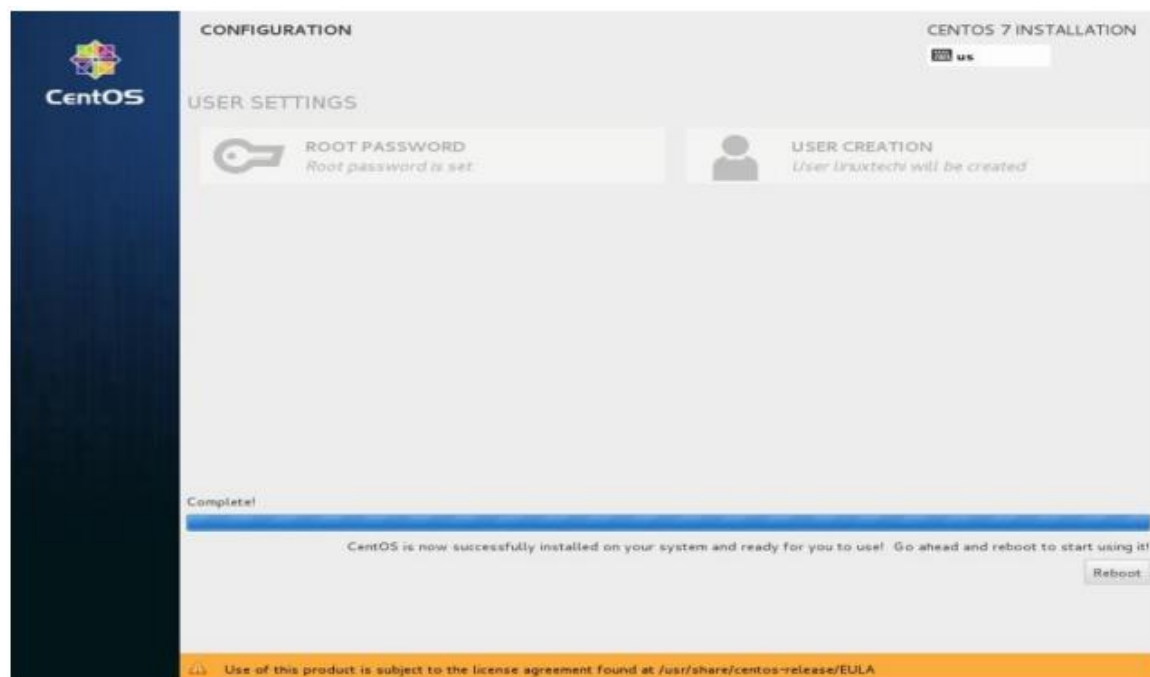

- Full name:** LinuxTechi
- Username:** linuxtechi
- Tip:** Keep your username shorter than 32 characters and do not use spaces.
- ☐ Make this user administrator
- ☒ Require a password to use this account
- Password:** [masked] with a strength indicator bar that is fully green, labeled 'Strong'.
- Confirm password:** [masked]
- Advanced...** button
