

WEEKLY REPORT

Work done in 1st week (Attach supporting Documents):

1. Firstly, company gave us information about the project briefly and gave information about what to do in project.
2. They told us to study different job websites and take the important thing which are needed in the websites.
3. Company has told us make two teams for Front-end and Back-end.
4. I got selected for back-end of the website.
5. I was given the task to create a schema of the table (Database) which we are going to use in the website.

Reason for incomplete work:

1. NULL

Plan: for next week:

1. Linking the tables of the database with the php code.
2. Login page for admin and customer with authentication.
